

# Eco Series ECO-LOCK (GS441FM & GS442FM)

## Powder Coated Steel Construction

### Features

- Roll Lock and notched on one end, allowing product to overlap, stabilizing installation
- Pressure Fit Lock
- Powder coated steel allows more rigidity
- Fine mesh—small hole helps with snow loads
- No endcaps required
- Medium to Large foliage including:

Sweet  
Gum

Maple

Oak

Dogwood

### Installation

Quick and easy installation by cupping and snapping into the installed gutter, no tools required. One end notched to create an overlapping system
