Installation

Push the front edge of the screen towards the front lip of the gutter, the C-Lock Clip will snap into place. The back edge of the screen should be pushed down and even with the back of the gutter. Some upward bowing is normal and ensures that the screen is pressure fitted.

Availability 4 foot sections— 50 pieces per box for a total of 200 feet 5" & 6 widths

Color Bronze - to match the most commonly utilized roof material color
